The market adoption for autonomous and automated guided vehicle systems varies considerably by industry sector. This report covers AGV (Automated Guided Vehicle), AMR (Autonomous Mobile Robots), Load Transfer Positions & Handling Equipment, Guide Track, Data Communication, and Vehicle Management Systems for indoor applications.

There are many industries and applications which have entered the early adopter phase where the validity of AGV is recognized by the market. Segments of the market which have already demonstrated success are warehousing and distribution, manufacturing production, and manufacturing logistics.

This report analyzes how various regions and industries performed against this backdrop, providing data that shows market growth stayed in positive territory despite the challenging environment.

The market for autonomous and automated guided vehicle systems is in a state of transition. The technology is gaining acceptance in industry and in the public eye. As this continues, ARC expects the market to grow rapidly, and expand globally.

The report identifies growth segments and market trends, as well as the challenges suppliers face to achieve expansion in a very fragmented market landscape. In addition to the quantitative assessment, the report provides an insightful analysis on issues that will have an impact on this market in the future.

- Market Shares of the Leading Suppliers
- Market Shares by Region
  - North America
  - Europe, Middle East, Africa
  - Asia
  - Latin America
- Market Shares by Revenue Category
  - Hardware
  - Software
  - Services
- Market Shares by Guided Vehicle System
  - AGV
  - AMR
  - Data Communication
  - Guide Track
  - Load Transfer
  - Vehicle Management System
- Market Shares by Vehicle Type
  - Fork/Pallet
  - Guided Carts
  - Tow
  - Unit-load Carrier

**MARKET FORECAST ANALYSIS**
- Total Shipments of AGV Systems
- Shipments by Region
- Shipments by Revenue Category

**INDUSTRY PARTICIPANTS**
The research identifies all relevant suppliers serving this market.
